HAMMER SHIPMENT

Client Profile:

Client outline: Engineering, procurement, construction and installation (EPIC) company specializing in complex offshore oil and gas projects

Client Relationship:

Started in September 2014 - Customs clearance, vessel chartering, inland trucking for 600cbm of cargo. This has resulted in BLA being involved in all tenders since September

Project Profile:

BLA was appointed to move a 75 ton Hammer (offshore equipment) from Batam (Indonesia) to Jebel Ali (UAE).

We engaged a multipurpose vessel (MPP) for the move and a crawler crane to lift the item from shore base.

Project Summary:

Challenges Faced:

- Time constraints – as we were given 1 week notice to engage the vessel
- Loading and unloading was done at a private berths
